

Bowman Observatory
New Telescope Fund Raiser

The Astronomical Society of Greenwich (ASG) is raising money to install a new state of the art telescope at the Bowman observatory. The Bowman observatory is owned by the Greenwich Board of Education and is located on the grounds of Julian Curtiss School. The ASG will purchase the necessary equipment and donate it to the BOE. When installed, the new telescope will make the Bowman observatory one of the best in the area, offering inspiring views of the Moon, planets, and beyond. The new telescope will also be available for viewing by the general public every second and fourth Tuesday of the month.

The ASG needs to raise \$24,000 to complete this project. As of September 2012 the ASG has raised about \$19,000. Any contribution is greatly appreciated and is tax deductible. The ASG is a 501c3 tax exempt organization. You will receive a receipt via mail from the ASG for your tax records.

Also, please inform anyone you think would be interested in making a contribution to this important project.

Thank you,

Anne Burns - President ASG
